

PUMPMASTER 3, 3+3 AND 6

Pump 3 MASTER

- Model 306000 PumpMaster 3 grease pump package for 120 lb kegs**
Includes: 302 PumpMaster 3 high pressure grease pump with bung adapter
 1936 120 lb keg cover
 964 Follower plate for 120 lb keg
 903000 Connection kit

Recommended Options

- 956 Air regulator with gauge and air filter combo unit; ¼" NPTF fittings
 2077 High pressure shut off valve; ½" NPTFBE
 2062 ½" NPTM x ¼" NPTF bushing

- Model 308000 PumpMaster 3 grease pump package for 400 lb drums**
Includes: 304 PumpMaster 3 high pressure grease pump with bung adapter
 1938 400 lb drum cover
 966 Follower plate for 400 lb drum
 903000 Connection kit

Recommended Options

- 956 Air regulator with gauge and air filter combo unit; ¼" NPTF fittings
 2077 High pressure shut off valve; ½" NPTFBE
 2062 ½" NPTM x ¼" NPTF bushing

Pump 3+3 MASTER

- Model 336000 PumpMaster 3 + 3 grease pump package for 120 lb kegs**
Includes: 332 PumpMaster 3 + 3 high pressure grease pump with bung adapter
 1936 120 lb keg cover
 964 Follower plate for 120 lb keg
 901000 Connection kit

Recommended Options

- 957 Air regulator with gauge and air filter combo unit; 3/8" NPTF fittings
 2077 High pressure shut off valve; ½" NPTFBE
 2061 ½" NPTM x 3/8" NPTF bushing

- Model 338000 PumpMaster 3 + 3 grease pump package for 400 lb drums**
Includes: 334 PumpMaster 3 + 3 high pressure grease pump with bung adapter
 1938 400 lb drum cover
 966 Follower plate for 400 lb drum
 901000 Connection kit

Recommended Options

- 957 Air regulator with gauge and air filter combo unit; 3/8" NPTF fittings
 2077 High pressure shut off valve; ½" NPTFBE
 2061 ½" NPTM x 3/8" NPTF bushing

Pump 6 MASTER

- Model 622000 PumpMaster 6 grease pump package for 120 lb kegs**
Includes: 622 PumpMaster 6 high pressure flange mount grease pump
 418025 120 lb keg cover
 964 Follower plate
 915000 Connection kit

Recommended Options

- 985 Air regulator with gauge and air filter lubricator; 1/2" NPTF fittings
 2077 High pressure shut off valve; ½" NPTFBE
 2061 ½" NPTM x 3/8" NPTF bushing

- Model 624000 PumpMaster 6 grease pump package for 400 lb drums**
Includes: 624 PumpMaster 6 high pressure flange-mount grease pump
 418026 400 lb drum cover
 966 Follower plate
 915000 Connection kit

Recommended Options

- 985 Air regulator with gauge and air filter lubricator; ½" NPTF fittings
 2077 High pressure shut off valve; ½" NPTFBE
 2061 ½" NPTM x 3/8" NPTF bushing

PUMPMASTER 3 - 55:1 EQUIPPED PUMP + HOSE REEL

Model 453 000 - PumpMaster 3 - 55:1 equipped pump and 30' hose reel for 400 lb drums.

Assembly for high pressure greasing with a Pump Master 3 - 55:1 pressure ratio pump for 400 lb drums.

Includes:

- 308 000: Pump Master 3 - 55:1 grease pump kit for 400 lb drums.
- 1431: 30' x 1/4" open type hose reel.
- 413 080: High pressure grease control gun with "Z" swivel.
- 955: 1/4" filter regulator.

Model 453 002 - PumpMaster 3 - 55:1 equipped pump and 50' hose reel for 400 lb drums.

Similar to model 453 000, includes open type hose reel 1680 with 50' x 1/4" hose.

Non included options:

- 411 103: In line grease meter for grease control gun.
- 1388: Hose reel pivoting bracket.
- 360 127: Control gun holder and drip holster.

PUMPMASTER 3+3 - 60:1 EQUIPPED PUMP + HOSE REEL

Model 453 602 - PumpMaster 3+3 - 60:1 equipped pump and 50' hose reel for 400 lb drums.

Assembly for high pressure greasing with a PumpMaster 3+3 - 60:1 pressure ratio pump for 400 lb drums. Package includes a 3/8" hose reel for higher delivery.

Includes:

- 338 000: PumpMaster 3+3 - 60:1 grease pump kit for 400 lb drums.
- 1682: 50' x 3/8" open type hose reel.
- 413 080: High pressure grease control gun with "Z" swivel.
- 957: 3/8" filter regulator.

Non included options:

- 411 103: In line grease meter for grease control handle.
- 1308: Hose reel pivoting bracket.
- 360 127: Control gun holder and drip gun.

210

Model 210

PumpMaster 2 3:1 stub pump with connection kit. Includes the following:

- Model 200: PumpMaster 2 3:1 ratio pump with bung bushing
- Model 904: Connecting hose hook-up kit

Model 212

PumpMaster 2 3:1 pump for 44-48" tanks with connection kit. Includes the following:

- Model 213: PumpMaster 2 3:1 ratio pump with bung bushing
- Model 904: Connecting hose hook-up kit

Model 260

PumpMaster 2 3:1 ratio pump only with bung adapter for 60" tanks. Includes 904 connection kit .

Model 202

Model 204

Model 202

PumpMaster 2 system for 16 gallon bung type keg. Includes the following:

- Model 206: PumpMaster 2, 3:1 ratio pump with bung bushing.
- Model 904: Connecting hose hook-up kit.

Model 204

PumpMaster 2 system for 16 gallon open top keg. Includes the following:

- Model 206: PumpMaster 2, 3:1 ratio pump with cover mounting adapter.
- Model 1936: Deluxe drum cover for 16 gallon keg.
- Model 904: Connecting hose hook-up kit.

Model 222

Model 224

Model 222

PumpMaster 2 system for 55 gallon bung type drum or 34"-36" workbench type tank. Includes the following:

- Model 208: PumpMaster 2, 3:1 ratio pump with bung bushing.
- Model 904: Connecting hose hook-up kit.

Model 224

PumpMaster 2 system for 55 gallon open top drum. Includes the following:

- Model 208: PumpMaster 2, 3:1 ratio pump with cover mounting adapter.
- Model 1938: Deluxe drum cover for 55 gallon drum.
- Model 904: Connecting hose hook-up kit.

SELF CONTAINED DRUM DISPENSERS

Model 1900

Model 1901

Bulk oil spigot type dispensers

Model 1900

Dispensing valve with self closing spigot valve. Connects to PumpMaster 2, 1:1 or 3:1 ratio pump (pump not included). Connecting thread 3/4" NPT (M).

Model 1901

Includes Model 1900 plus Model 1197 quart totalizing meter.

1:1 OIL PUMP TRANSFER PACKAGE FOR 55 GAL DRUMS

Model 454 002 - 1:1 oil transfer pump package for 55 gallon drums

Low pressure air operated pump for transferring lubricants from 55 gallon drums through a 15' oil hose. Approximate delivery at 100 psi (7 bar) pressure with motor oil: 7.8 gpm (30 l/min).

Includes:

- 218: 1:1 oil pump for 55 gallon drums.
- 950 302: Needle air valve, 1/4" BSP (FF).
- 2051: 1/4" NPT (Qty 2) connection adapter.
- 362 303: 15' x 3/4" oil hose.
- 361 000: High delivery nozzle.
- 955: 1/4" filter regulator.

PUMPMaster 2 3:1 OIL PUMP PACKAGES FOR 55 GALLON DRUMS

454 110

Model 454 110 - PumpMaster 2 3:1 oil dispensing pump with meter

Medium pressure air operated pump with hose end meter for dispensing all types of lubricants from 55 gal drums through a 15' oil hose. Approximate delivery at 100 psi (7 bar) pressure with motor oil: 2.1 gpm (8 l/min).

Includes:

- 208: 3:1 oil pump for 55 gal drums.
- 848: 15' x 1/2" oil hose.
- 2162: Digital metered control handle with flexible multi-outlet
- 955: 1/4" filter regulator.

Model 454 112 - PumpMaster 2 3:1 oil dispensing pump with preset meter

Similar to model 454 110, includes a digital pre-set control handle model 2199 instead of the hose end meter 2162.

Model 454 111 - PumpMaster 2 3:1 oil dispensing pump with non-metered control handle

Similar to model 454 110, includes a non-metered oil control gun 1173 instead of the hose end meter 2162.

OIL DISPENSING PUMP FOR 55 GALLON DRUM

Model 262 - Oil dispensing pump with outlet valve

Special 2:1 pressure ratio air operated pump with an outlet spigot for dispensing lubricants from 55 gallon drums.

Includes:

- 735 800: 2:1 pressure ratio pump.
- 368 108: Suction tube for 55 gal drums.
- 736 462: Oil tray with 2" BSP (M) bung adapter.
- 361 100: Oil spigot valve.

PM2 - 3:1 PUMP HOSE REEL METER PACKAGES

All Series 9003 packages include configured PumpMaster 2 3:1 pump, model 904 connection kit, SERIES 506 1/2" x 50' MP oil reel model 506 222, model 955 filter/regulator, and a digital metered control handle.

- Model 900 301:** Stub pump for use with tank with 2161 digital metered control handle
- Model 900 302:** Stub pump for use with tank with 2199 preset handle
- Model 900 303:** 16 gallon keg length pump with 2161 digital metered control handle
- Model 900 304:** 16 gallon keg length pump with 2199 preset handle
- Model 900 305:** 55 gallon drum length pump with 2161 digital metered control handle
- Model 900 306:** 55 gallon drum length pump with 2199 preset handle

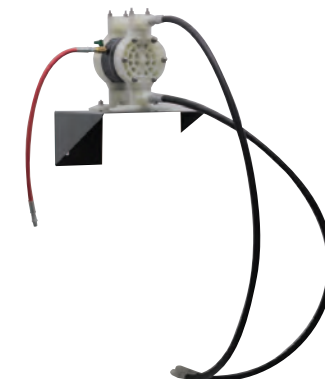

PM4 - 5:1 PUMP HOSE REEL METER PACKAGES

All Series 9005 packages include configured PumpMaster 4 5:1 pump, model 906 connection kit, SERIES 506 1/2" x 50' MP oil reel model 506 222, model 957 filter/regulator, and a digital metered control handle.

- Model 900 501:** Stub pump for use with tank with 2161 digital metered control handle
- Model 900 502:** Stub pump for use with tank with 2199 preset handle
- Model 900 503:** 16 gallon keg length pump with 2161 digital metered control handle
- Model 900 504:** 16 gallon keg length pump with 2199 preset handle
- Model 900 505:** 55 gallon drum length pump with 2161 digital metered control handle
- Model 900 506:** 55 gallon drum length pump with 2199 preset handle

WINDSHIELD WASH/ANTI-FREEZE PUMP PACKAGE

Model 900 801

Pumping system for pre-mixed windshield wash and anti-freeze solutions. This package includes:

- Model 2829: 1/2" polypropylene diaphragm pump rated to 13.5 gpm; includes ball valve
- Model 2086: diaphragm pump wall-mount bracket
- Model 802: 1/4" x 5' LP air hose
- Model 846: 1/2" x 5' fluid inlet & outlet hoses (2)
- Model 955: 1/4" filter/regulator combo (not shown)

A wide variety of lube skids are available.

Depending on your application, lube trailers can be a flexible solution.

Mobile lube trucks, trailers, and platforms are utilized in situations where it is necessary to bring the lubricants to the piece of equipment or machine. For example, the construction industry has many pieces of equipment such as dozers, scrapers, haul trucks, and other equipment where it is more practical and economical to service in the field. Industrial applications such as in-plant use are also another application where moving the lube equipment to the machine is the proper solution.

Due to the high quality and durability of Samson's product offering, Samson has strong relationships with a variety of mobile lube service fabricators throughout North America. We partner with these companies to address your specific needs and design a service platform that is an efficient solution to your mobile lubrication challenges.

Contact us today to find out how we can make this solution work for you!

Lube trucks of all shapes, sizes and capabilities.
